www.allenacresbandb.com

Since the Spring bugguide gathering scheduled for May 14-17, 2020, sold out so quickly, we decided to offer a second one the following week (May 21-24). Rooms in B and B normally cost \$90 per night but will be \$80 for this event for each room with one or two adults. We have seven rooms; four have only a king sized bed and the other three have an additional single bed. WE also can offer dorm type air mattresses at \$30 per night (includes breakfast and air conditioned space). Camping is available at \$30 per night (includes breakfast also). If you bring a camper, we do not have hookups but can provide electricity for a fan. Closest airport in Alexandria, La (AEX) and is about a 50 minute drive from Allen Acres.

This is a proposed schedule but yall are welcome to make your own schedule. We have scheduled two tours; our own property, longleaf pine, and pitcher plant bog/baygall. A butterfly count is being pursued for Sat morning May 24

Note: all meals are \$10 per person except breakfast which is part of the B and B
